Introduction

This manual describes how to setup the Daily Log Module. Select the following menu

General Tab

This section covers the General Tab.

The following fields are available in the General Tab.

Field Name	Description
Suppress All Tab	Check this box to turn off the All tab found in the Daily Log Screen.
Use Calendar Date on New Records	Check this box to turn on the new date function. This means the current date and time will be entered into the date field on new records.

Daily Log Description

Select the Daily Log Description tab to enter a list of descriptions. These entries are used in the daily log description field.
